Terms and conditions

The award of this certificate of completion indicates that you have accessed the eILS course materials and completed the associated learning activities but does not constitute a certificate of competence or a licence to practise. This is a matter for your employer who may recommend further training. Employers are themselves directly responsible for establishing that their staff have the capabilities requisite to their clinical setting - this is essential in the interests of patient health and safety. Accordingly, they must not rely to any extent on the holding by an individual of a Certificate of Completion from Resuscitation Council UK as lessening their responsibility in that respect.
